

## **LED-2**

### **Technical Parameters**

Material;aluminum

Lens material:acrylic

Working voltage:AC180-260v

Work: current of 600 MA/W+/-5%  
power:1\*20w

Pury chip:the United States

Color temperature range:6000-6500 k

Light Angle:24°

Product specifications: 110 mm in diameter

Illumination:1750LM (30000Lux)

The core source lamp bead origin: Taiwan
